SUMMARY

Junior Full Stack Web Developer with a background in Telecommunications.

Proven experience in problem solving and computer literacy. Known for my attention to detail and taking pride in my work. Completed the University of Adelaide Coding Boot Camp with excellent grades. Strengths include Leadership, Teamwork and the ability to take on any task given to me.

TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, GitHub, Node, jQuery, Bootstrap, Express.

PROJECTS

Sort A Meal | <https://github.com/mckayjalex/sort-a-meal> | <https://mckayjalex.github.io/sort-a-meal/>

- The app we designed was a food finder app which would use a Google Places API and a Spoonacular API to retrieve recipes and nearby restaurants and then save them to local storage on click of a button.
- Front End Developer for Categories/Fav Pages
- HTML, CSS, Javascript, Tailwind, Google Places API, Spoonacular API, FontAwesome, Google Fonts

Code Quiz | <https://github.com/mckayjalex/code-quiz> | <https://mckayjalex.github.io/code-quiz/>

- Code quiz is a simple coding quiz game that we created as part of an assignment at Adelaide Uni. You'll be asked multiple choice questions until you've completed all 10 or the timer runs out, an incorrect guess will result in 5 extra seconds being removed. Once completed you can enter your name and save your score to the local storage.
- Sole Developer and Designer
- HTML, CSS, Javascript

Weather Dashboard | <https://github.com/mckayjalex/weather-dashboard> | <https://mckayjalex.github.io/weather-dashboard/>

- Weather dashboard is a simple web application that uses a weather API to retrieve the current weather data and also a 5 day forecast.
- Sole Developer and Designer
- HTML, CSS, Javascript, Tailwind, Open Weather API
